INTRODUCTION OF AKI INU

In the big world of memes, populated by many animals, there is a dog from the future. Aki Inu.

Aki Inu came from the future to erase all the footprints left by his predecessors and leave his impressions.

Aki Inu aims to create an advanced level of dog community. Unlike the other memes, his first ecosystem products will be released immediately.

This not only underlines the seriousness of the project but provides immediate utility to the token.

The journey is about to begin, join our community and help us erase all traces of the past by rewriting the future.

TOKEN DYNAMICS

Aki Inu is an hyper deflationary token created on BNB chain. Why on BNB chain?

Binance Smart Chain (BSC) was developed as a means of utilizing solidity-based smart contracts with much greater speed and efficiency than other, competing chains.

With decentralized exchanges on BSC offering lightning-fast swaps and extremely low fees, BSC has started to become one of the most widely used blockchains for Decentralized Finance (Defi).

300 Trillion

AKI INU PROTOCOL

Aki inu adopt three simple functions:
Reflection + LP acquisition + Burn in each trade

1% fee

redistributed to all existing holders.

1% fee

30% of the total supply will be burned before launch

+ 1%

which will be burned in each transaction

2% fee

are automatically exchanged by the contract in BNB and added to the liquidity pair on Pancakeswap

4% fee

It is added to the marketing wallet which will be exclusively used to pay influencers and make listings on the various CEXs

OUR VALUE

TRANSPARENCY

Aki Inu is supported by its community of enthusiasts. We encourage open communication and believe trust, transparency, and community are the 3 pillars to building longevity

COMMUNITY

Aki Inu is one of the fastest growing and most loved communities in crypto and we believe that only together we are strong. Community is everything and Aki Inu strives to include everyone from around the globe. We have multiple telegram channels dedicated to our international communities.

The international community and the chinese community will be our main communities right away.

We will immediately expand to other communities such as Indonesia and Philippines.

TRUST

In the cryptocurrency market, trust is key. This means full transparency not only in the community and development, but also in security efforts. Aki Inu was verified by a third-part audit by Solid Proof finance company, released the KYC before the launch, burned and locked all LP tokens.

LONGEVITY

Aki Inu is ready for the long journey. The community is promoting and adopting long-term ecosystem development and foundation in efforts to drive real use cases.

ECOSYSTEM

DEVELOPMENT PLAN THAT CAN BE SEPARATED INTO FOUR MODULES

AKI SWAP

From our swap, in addition to having the possibility of being able to trade AKI, you will have the opportunity to buy the main cryptocurrencies such as BNB, ETH etc.

They can be purchased directly with one of your cards or using Apple Pay, Google Pay etc.

This represents the first step in the development of our ecosystem and will be released before the presale. The launch of the swap will be combined with marketing to promote the platform and the project in the best possible way.

NFT COLLECTION

A series of 2000 unique hand-drawn NFTs, representing highly trained and skilled combat veterans who are working together on the front lines to one day see cryptocurrency become the official currency of the Earth. Their mission is simple: remove all borders and destroy government-controlled monopolies. The AKI Army NFT project is a revolutionary project that is more than just a randomly generated JPG. The holders of our project will be able to use their NFTs to play to WARDOGS, a play and earn and receive additional \$ AKI tokens, which are publicly available on the BSC network.

AKI MARKETPLACE

Buy, sell and trade yours Aki NFTs directly by our platform.

GAMEFI PLAY AND EARN

WarDogs, represents our spearhead. It is not an isolated game of the ecosystem but it helps to give utility to the project, to entertain people and to further earn all NFTs owners.

WarDogs is a play and earn set in a battle context, each player can play with their NFTs, equip it with more powerful weapons and increase its value.

A multiplayer mode will be included in the game where all NFTs owners will be able to clash and the players with the highest score will receive prizes in \$ AKI tokens.

ECOSYSTEM NFT COLLECTION

As previously said one of the fundamental points of our ecosystem will be the release of our NFT collection.

About NFT

As soon as the launch takes place, our goal will be to expand the community and make it more and more active. Thanks to this we will be able to carry on the project and release our first collection.

What will be the utility of our NFTs ?

Each NFT can be used within WarDogs and earn \$ AKI, or you can trade it on our marketplace.

The collection will consist of 2000 unique NFTs designed by an artist. The NFTs representing highly trained and skilled combat veterans who are working together on the front lines to one day see cryptocurrency become the official currency of the Earth.

The rarity levels will be dictated by their equipment and we will create real Navy Seals.

ECOSYSTEM GAMES

WHY PLAY AND EARN AND NOT PLAY TO EARN ?

Our goal right away will not be to create a platform where anyone can earn, we don't want people to play just for the simple earning of money, but we want people to play for passion, passion for the world of crypto, passion for our game. We believe that this is the only solution to ensure that even in a macroeconomic situation like the one we are experiencing, the entire ecosystem can survive. So making people passionate about the game not for the simple gain but for the pleasure of playing.

Aki Inu aims to create an open digital war dog universe. AKI NFTs assets can be seen as tickets that guarantee access to all current and future experiences based on the AKI ecosystem.

AKI's core team will create functionality for the gaming assets associated with the AKI brand in collaboration with the community. The AKI universe has to be above all fun; only by having an engaging gaming experience can the ecosystem attract a sufficient number of participants to accumulate value in the network.

WARDOGS

WarDogs represents our spearhead. It is not an isolated game of the ecosystem but it helps to give utility to the project, to entertain people and to further earn all NFTs owners. WarDogs is a play and earn set in a battle context, each player can play with their NFTs, equip it with more powerful weapons and increase its value.

A multiplayer mode will be included in the game where all NFTs owners will be able to clash and the players with the highest score will receive prizes in \$ AKI tokens.

ROADMAP

STAGE 1

- Website development
- Whitepaper development
- Set up social media
- Smart contract development
- Kyc and audit with Solidproof
- Marketing
- Presale on Uncirrypt

STAGE 2

- Aki Swap release
- CoinMarketcap
- CoinGecko
- Huge Marketing
- Official merchandise store
- Charity partnership

STAGE 3

- NFT Collection
- AKI Marketplace
- Airdrop
- First CEX
- Charity partnership

STAGE 4

- Wardogs released
- Certik audit
- Second CEX
